Description	Qty	Cost	Total
AFV-N-S-09-S6-DLH Dengensha cassette type low profile single automatic weld nut feeder. Designed specifically to feed a single 6MM square nut, projections down to the locating pin on the lower electrode of any standard press-type welder. Includes universal mounting bracket for easy adaptation of 200MM stroke non-magnetic nut placement unit to frame of welder. Requires AC 115V electric power and 40-70 PSI air pressure for proper operation. Also includes auxiliary bulk hopper, printed circuit board, 3M vinyl tube, and vinyl dust cover.	1	7,206.00	7,206.00
AFV-N-S-09-S8-DLH Dengensha cassette type low profile single automatic weld nut feeder. Designed specifically to feed a single 8MM square nut, projections down to the locating pin on the lower electrode of any standard press-type welder. Includes universal mounting bracket for easy adaptation of 200MM stroke non-magnetic nut placement unit to frame of welder. Requires AC 115V electric power and 40-70 PSI air pressure for proper operation. Also includes auxiliary bulk hopper, printed circuit board, 3M vinyl tube, and vinyl dust cover.	1	7,206.00	7,206.00
AFV-N-S-10-S10-DLH Dengensha cassette type low profile single automatic weld nut feeder. Designed specifically to feed a single 10MM square nut, projections down to the locating pin on the lower electrode of any standard press-type welder. Includes universal mounting bracket for easy adaptation of 200MM stroke magnetic nut placement unit to frame of welder. Requires AC 115V electric power and 40-70 PSI air pressure for proper operation. Also includes auxiliary bulk hopper, printed circuit board, 3M vinyl tube, and vinyl dust cover.	1	9,200.00	9,200.00
Tooling Kit Tooling kit for change over to M8 square nut. Includes: feed unit assembly, 3M length vinyl tube, M8 square nut cassette	1	3,350.00	3,350.00
Tooling Kit Tooling kit for change over to M10 square nut. Includes: feed unit assembly, 3M length vinyl tube, M10 square nut cassette	1	3,350.00	3,350.00
